Resources for Editors

JARUS is a group of experts from 65 National Aviation Authorities (NAAs) and regional aviation safety organizations, as well as EASA and EUROCONTROL.

JARUS aims to recommend a single set of technical, safety and operational requirements for the certification and the safe integration of Unmanned Aircraft Systems (UAS) in airspace and at aerodrome. Four Working Groups provide guidance material and recommendations to facilitate national aviation authorities and regional aviation safety organizations to develop their requirements and avoid unnecessary duplication of effort.
