

Joint Authorities for Rulemaking of Unmanned Systems

PRESS RELEASE No. 2015/09

October 5, 2015

Publication for 1st Edition of JARUS – FCL Recommendation

Version 0.10

This JARUS FCL Recommendation aims at providing recommendations for States to use for their own national legislation, concerning uniform personnel licensing and competencies for personnel involved in the operation of remotely piloted aircraft systems (RPAS).

With regard the EASA Advanced Noticed of Proposed Amendment 2015-10, Introduction of a regulatory framework for the operation of drones, thereof
Whereas:

- (1) JARUS agreed these recommendations (JARUS-FCL Recommendation) with a view to provide a harmonised basis to regulate organisations involved in the life cycle of civil RPAS.
- (2) The JARUS-FCL Recommendation may be used by the competent authorities to develop provisions regarding licensing and competencies in RPAS activities in relation to the concept of operations in their respective States or Regions.
- (3) Due to the rapid evolution of RPAS technology, the JARUS-FCL Recommendation will be subject to continuous review and may be updated when appropriate.

See the adopted recommendations within the document.

JARUS is a group of experts coming from National Aviation Authorities (NAAs) from the five continents and the European Aviation Safety Agency (EASA).
