

**Joint Authorities for Rulemaking on Unmanned Systems**

**PRESS RELEASE No. 2017/18**

**11 April 2017**

**JARUS External Consultation:  
UAS Operational Categorization: Section 4 – Category B**

JARUS is pleased to announce to the RPAS Community the start of the External Consultation on the [JARUS Website](#) for the following document:

- **UAS Operational Categorization: Section 4 – Category B** (*deadline 30 May 2017*)

Interested parties are invited to send comments on Section 4. Only this part of the UAS Operational Categorization document is open for External Consultation.

Registration to “[One Sky Team online](#)” is required to access the JARUS documents and submit comments.

Already registered users to OpenSky can access the UAS document directly at [https://ost.eurocontrol.int/sites/rpas/ext\\_consultations/SitePages/Home.aspx](https://ost.eurocontrol.int/sites/rpas/ext_consultations/SitePages/Home.aspx)

If you want to sign up to OpenSky, please self-register [here](#), then following the successful registration, please contact the JARUS Secretariat ([contact@jarus-rpas.org](mailto:contact@jarus-rpas.org)) to enable your access to the JARUS External Consultation SharePoint site.

Only comments submitted through the online tool by 30<sup>th</sup> May 2017 will be considered. Thanks for your contribution.

Feel free to forward this message to anyone interested to contribute to the development of the JARUS deliverables.

**If you want to continue receiving JARUS news and updates, please register [here](#).**

---

**Note to editors**

JARUS is a group of experts from 50 National Aviation Authorities (NAAs) and regional aviation safety organizations, as well as EASA and EUROCONTROL.

JARUS aims to recommend a single set of technical, safety and operational requirements for the certification and the safe integration of Unmanned Aircraft Systems (UAS) in airspace and at aerodrome. Seven Working Groups provide guidance material and recommendations to facilitate national aviation authorities to develop their own requirements and avoid unnecessary duplication of effort.
