

**Joint Authorities for Rulemaking on Unmanned Systems**

**PRESS RELEASE No. 2018/27**

October 19<sup>th</sup>, 2018

**JARUS External Consultation for  
“JARUS OPS Recommendations for UAS Category B Operations” is now open!  
Submit your comments online.**

JARUS is pleased to launch the External Consultation for "JARUS OPS Recommendations for UAS Category B Operations".

JARUS recommends the requirements contained in this document for global harmonization of rules concerning operations of UAS in Category B (i.e. medium risk).

The scope provides material Competent Authorities may use to regulate the operation of unmanned aircraft (UA) in this category, either remotely piloted or autonomous.

We invite all JARUS stakeholders to provide comments on the document (i.e. the non greyed out portion).

JARUS Working Group 2 (Operations) has developed the “JARUS OPS Recommendations for UAS Category B Operations” with the contribution of experts from several JARUS Member States.

The External Consultation will be open until **31 December 2018** at [https://ost.eurocontrol.int/sites/rpas/ext\\_consultations/SitePages/Home.aspx](https://ost.eurocontrol.int/sites/rpas/ext_consultations/SitePages/Home.aspx)

Please note you must register on “**One Sky Team**” to access the documents and submit your comments.

**Already registered for the ongoing JARUS External Consultation?**

Go to [https://ost.eurocontrol.int/sites/rpas/ext\\_consultations/SitePages/Home.aspx](https://ost.eurocontrol.int/sites/rpas/ext_consultations/SitePages/Home.aspx)

**Not registered?**

1. Self-register [here](#).
2. Then send an email to the JARUS Secretariat at [contact@jarus-rpas.org](mailto:contact@jarus-rpas.org).  
A member of the Secretariat will reply once you have been granted access.

**PLEASE NOTE: Only comments submitted online by 31st December will be considered.**

Please feel free to forward this message to anyone who would like to contribute to the development of JARUS deliverables.

---

## **Note to editors**

JARUS is a group of experts from 56 National Aviation Authorities (NAAs) and regional aviation safety organizations, as well as EASA and EUROCONTROL.

JARUS aims to recommend a single set of technical, safety and operational requirements for the certification and the safe integration of Unmanned Aircraft Systems (UAS) in airspace and at aerodrome. Seven Working Groups provide guidance material and recommendations to facilitate national aviation authorities to develop their own requirements and avoid unnecessary duplication of effort.
